Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 2 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. This office action is in response to the amendment filed 30 March 2005, in which claims 1, 8, and 9 were amended and claims 6, 7, 10, and 11 were cancelled.

Specification

2. The amendment filed 30 March 2005 is objected to under 35 U.S.C. 132(a) because it introduces new matter into the disclosure. 35 U.S.C. 132(a) states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows: Lines 13-17 that were added to paragraph 0005 constitute new matter because their location within paragraph 0005, which previously only contained subject matter that generically applies to all of the species, implies that the newly added subject matter also applies to all of the species. However this newly added subject matter only applies to one of the species.

Applicant is either required to cancel the new matter in the reply to this Office Action, or the newly added subject matter should be rewritten in order to distinguish it from other embodiments. For example, the specification amendment could read, "In the first embodiment, the storage device for the measuring element is a sleeve...measuring elements per chamber."

Claim Objections

3. Claim 1 is objected to because of the following informalities: the period at the end of line 12 should be changed to a comma. Appropriate correction is required.

Response to Amendment

4. The amendment to claim 1, in which lines 13-17 were added, has not been properly indicated by underlining the newly added subject matter.

Allowable Subject Matter

5. Claims 1, 8, 9, 12, 14-17, and 22 are allowed.

Response to Arguments

6. The examiner disagrees with the applicant's statement that currently amended claim 1 is generic to each of the species. Specifically, the storage device for the measuring element of claim 1 and figures 1, 5, 6, and 7a-7d is not the same as the storage device for the measuring element of figures 2, 3, 4a, and 4b. The applicant has pointed out in the specification that the storage device for the measuring element of figures 2, 3, 4a, and 4b is a measuring element retractor 18. Further, nowhere in the originally filed specification or drawings does the applicant support an embodiment in which the storage device 40 is associated with the airbag module embodiments in figures 2, 3, 4a, and 4b. Thus, claim 1 is no longer a generic claim, and withdrawn claims 2-5, 13, and 18-21 should be canceled.

Conclusion

7. This application is in condition for allowance except for the following formal matters:

Art Unit: 3616

Specification and claim objections should be corrected (see above);

Amendment documentation should be corrected (see above);

Cancellation of withdrawn claims is required (see above).

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

NEW CENTRAL FAX NUMBER

Effective July 15, 2005

On July 15, 2005, the Central FAX Number will change to **571-273-8300**. This new Central FAX Number is the result of relocating the Central FAX server to the Office's Alexandria, Virginia campus.

Most facsimile-transmitted patent application related correspondence is required to be sent to the Central FAX Number. To give customers time to adjust to the new Central FAX Number, faxes sent to the old number (703-872-9306) will be routed to the new number until September 15, 2005. After September 15, 2005, the old number will no longer be in service and **571-273-8300** will be the only facsimile number recognized for "centralized delivery".

CENTRALIZED DELIVERY POLICY: For patent related correspondence, hand carry deliveries must be made to the Customer Service Window (now located at the Randolph Building, 401 Dulany Street, Alexandria, VA 22314), and facsimile transmissions must be sent to the Central FAX number, unless an exception applies. For example, if the examiner has rejected claims in a regular U.S. patent application, and the reply to the examiner's Office action is desired to be transmitted by facsimile rather than mailed, the reply must be sent to the Central FAX Number.
